

Announcement of Selection

On behalf of the steering committee of the Joint Research Program for Emerging Scholars in the Wind Engineering Research Center, Tamkang University, I am very pleased to announce the applicants, shown below, have been officially accepted as the researcher of the Joint Research Programs in **2016** fiscal year.

Researcher

KIM, Yong Chul

Research Theme

Researches on characteristics of wind forces acting on high-rise buildings/ dynamic characteristics of structures for wind-induced response

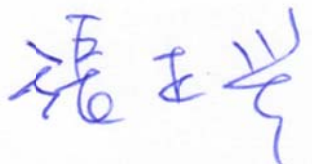

Research Title

Characteristics of unsteady aerodynamic forces on oscillating square prism

Research Period

2016.8.1 ~ 2017.7.31

Accepted researchers are requested to contact their co-researcher in TKU-WERC to make sound arrangements for further work or experiments.

Cheng-Hsin Chang

Head of Wind Engineering Research Center, Tamkang University

No.151, Yingzhuang Rd., Tamsui Dist., New Taipei City 25137, Taiwan (R.O.C.)
